10849 Bucknell Drive
Wheaton, MD 20902

Feb. 25, 1994

Dear Mr. Roth:

I began to use Militec-1 about 3 years ago on all of the family cars. The cars consist of 2 505 Peugeots and a 405. The Peugeots have always been exceptional autos, but, became more so with the use of Militec-1.

Gas mileage on all of the vehicles increased approximately 2 to 3 miles per gallon. I kept very accurate records to prove this to myself as frankly, I take many of the claims made for automotive products with a "grain of salt".

Militec-1 has been everything that you have claimed for it and more. This has been especially true in the case of the Peugeot 405.

I purchased the 405 new in 1991. While it has been a very dependable car, 405's had a reputation for using some oil. For approximately the first 20,000 miles, I used Mobil 1 as a lubricant. The 405 used about one quart of oil per 750 to 800 miles. I then began using Militec-1 as directed on every other oil change. The car now has approximately 73,000 miles on it and has never again required oil between changes. (It is changed along with the filter at 8,000 mile intervals) I have passed the information on my experience with the 405, on to other owners of 405's. They began using Militec-1 and oil usage ceased.

You have an excellent product which lives up to the claims that your company has made for it.

Sincerely

Richard Spitz Jr.
