J. THOMAS BROWN III  
2139 WHISPERING SANDS LANE

Dear Tom:

Chesapeake Sailing Association is pleased to advise you that our use of MILITEC-1 in Marine Engines has proven to be very effective. To date we have treated, at the recommended level, the following Marine Diesel Engines:

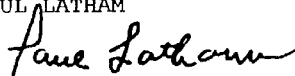

- 1) UNIVERSAL INSTALLED IN OUR CATALINA 34
- 2) PERKINS, INSTALLED IN OUR BENETEAU 38
- 3) VOLVO, INSTALLED IN OUR ELITE 32
- 4) YANMAR, INSTALLED IN OUR IRWIN 32 & HUNTER 35

Since treating the engines with MILITEC-1 we have experienced a noticeable decrease in engine noise and an estimated 33% increase in fuel economy.

Based on these findings we are pleased to endorse the use of MILITEC-1 in Marine Engines.

Yours truly,

PAUL LATHAM

CHESAPEAKE SAILING ASSOCIATION
